

THE CENTRAL RECORD

FIFTEENTH YEAR.

LANCASTER, KY., FRIDAY, NOVEMBER 11 1904.

NUMBER 33

Local Notes.

Now for Thanksgiving.

The leaves are about gone.

The turkey will soon be ripe.

Jack Frost is beginning to pinch.

Wise turkeys are seeking tall timber.

The Rural Routes are a great blessing.

Lancaster supply of water is now assured.

The campaign orator must now go to work.

The Knights of Pythias meet every Friday night.

Benzley's sale was well attended and good prices realized.

If you can't speak well for your neighbor, don't say anything.

Store stoves are becoming more popular as the days become colder.

The price of coal remains low, although other towns are kicking about a rise.

Stanford and Lancaster teams played a tie game of football Friday, five to five.

Wednesday, the 16th. Oyster supper by ladies of Grove church Christian Endeavor.

Remember the oyster supper at toll gate house, Camp Dick Robinson, Wednesday evening, the 16th.

A phone has been placed at the depot, and is proving of great benefit to the public. The number is 36.

Fishermen have now taken up their station around the store stove, and are catching some whalesever night.

Parents seem to have drawn the lines over the urchins, as there is not near so much noise on the streets at night.

The Christian Endeavor, of the Christian church will have a bazaar and exchange at the post office Dec. 17th.

"Big Injun" Rothwell is one of the best Marshals the town ever had. He plays no favorites, and never runs off on mouse tracks.

The C E society will entertain Friday evening in the lecture room of the Christian church. The young people of the community are most cordially invited to attend.

Remember the R A Stone sale Saturday.

One family, living 1½ miles from town is getting drinking water from a friend's cistern in Lancaster.

Don't be sour or crabid, and as me as the devil. Put on a smile, or take a "smile" if necessary, to cheer up. You'll feel better.

Squire Sam Johnson raised thirty-one barrels of corn on two acres of ground, near town. The ears were large and extra fine.

The W C T U will have candy and an exchange at the post office Tuesday before Thanksgiving. Your patronage is earnestly solicited.

A charity organization should be formed to look after the deserving poor during the winter. This would be better for all concerned.

The Chute comes will soon begin to "work" on the fences about town. It's nothing unusual to hear of an entire panel being stolen in cold weather.

Thanksgiving Services.

The usual Thanksgiving services will be held at 10:30 a.m. this year, in the Christian church. Bro. Ellis will preach the sermon.

The report that the turkey crop will be short is all a fake. There are plenty of the toothsome birds in the country, so say those who ought to know.

Sam Menefee, the genial editor of the Danville Advocate, accuses us of sending him that jug of water the Lancaster stage left at his office last week. Didn't do it, Sam.

Next comes the Democratic primary election to select a candidate for State Senator. It will be held Saturday, Dec. 3 R L Hubble and M F Elkin, of Lincoln, are the candidates.

Ladies should be very careful about going near open fire places. A very narrow escape from a severe burning and the loss of a residence in this way happened right here in Lancaster, Friday.

Several towns in Central Kentucky are ordering compulsory vaccination. This is the right step and should be done in Lancaster. Don't wait 'til the horse is gone before locking the stable door.

Will Sell Saturday.

We call attention to the advertisement of Mr R A Stone in this issue. He will offer some good property tomorrow (Saturday) and if you want a bargain, don't fail to attend.

Work in the first degree will be conferred at the K P Lodge tomorrow (Friday) night. Every member is urged to be present. The lodge is now in better shape than ever before.

Mr Banks Hudson has moved into his new quarters at the Leavel planning mill, where he has splendid facilities for handling the large quantities of hemp, wool, grain, etc., which he buys.

Bought a Farm in Garrard.

Winchester Democrat: — Zack Elkin who recently sold his farm near the waterworks, has bought the farm of T S Hagan in Garrard county, containing 210 acres at \$80 per acre.

Sign Fall in Dry Weather.

"Three big frosts and a rain," says the old proverb, but the frosts have been multiplied and no rain. However, the weather man is weakening and predicts probable rain every day.

Our young friend, Lewis Herndon, who is working for Belknap, in Louisville, received a promotion last week. His many friends will be glad to hear of "Sam's" good luck, as he is a deserving and industrious young fellow.

For Thanksgiving.

The ladies of the Baptist church will have an exchange at the post office Saturday before Thanksgiving. Everything nice to eat at very low prices.

Bourne-Humphrey.

Mr Wesley Bourne and Miss Nora Humphrey were married at the residence of Rev C S Ellis. The contracting parties reside in the Bourne neighborhood and are well-known and popular young people.

"Bud" James' Luck.

Harrodsburg Democrat: — Mr I C James returned from Chicago Saturday night, proud of his success there. In the big horse show he took three first and two second prizes, showing the horses of Dr Cann, of Georgetown.

Lock completed.

Lock No. 10, at Ford, on Kentucky river, is completed, and was thrown open to the passage of boats last Saturday. Work on lock and dam No. 11 at Irvine, is being pushed forward at a brisk rate. — Carrollton News.

Taken Down.

The Postle stock of hardware was offered at public sal Saturday afternoon, a bid of only \$1,000 being offered, it was taken down. This was not near half its worth. This is a splendid stand for the hardware business.

Promising Lad.

A promising young genius is Master Roger Aldridge, the nine year old son of Malcolm Aldridge. He has constructed quite a number of articles which would do credit to an experienced mechanic. His latest work is the construction of a pair of balance scales, made of a can top and sticks, two clay pigeons being used as the scoops.

Old Eye-Sore Gone.

The people of Lancaster owe a debt of gratitude to Mr C D Powell for tearing away the old Eason shack on Richmond street. It was one of the oldest houses in Kentucky, and contained enough stone and lumber to build half a dozen houses like those constructed these days. There's no telling when it was built, even Uncle Dennis Brown and Bob Kinnaid failing to remember when it was put up.

H. B. Northcott Moves.

Mr H B Northcott, the poultry and produce man, has moved his headquarters to the Leavel planning mill property on Crab Orchard street where he has splendid facilities for handling his stock. He will pay highest market prices for poultry, hides, furs, and everything in this line. Remember that he will always have on hand, lime, cement and salt, and will sell the best coal ever brought to Lancaster at the very lowest prices.

Scarcity of Farm Help.

Farmers say they have never known help to be as hard to get, nor have prices ever been so high. Any kind of a hand wants almost twice his worth, if he will work at all. One farmer, near town is paying a dollar a day and three meals for hands to shuck corn, and we know of one who last week not only paid this price but came to town in a wagon every morning, hauled the negroes to his farm, fed them and then hauled them to town at night. This was kept up until his large crop of corn was shucked. There are plenty of negroes here, but not one in ten will work at any price. The good ones are eagerly sought after, and any man who can work and will work, can get most any wages he wants. Many farmers are renting their places and moving to town for the simple reason that they cannot get help to handle the crops.

This state of case exists all over Kentucky, and every exchange coming to our desk contains articles on this subject. In some towns a good cook is worth her weight in gold, while a house girl, a luxury few people can afford. Many of the better class of darkies have moved to Indiana and Ohio, as they claim to get better wages up there. In this claim they misrepresent, for, if they would work as hard and as faithfully down here as they up there, they would be worth more money and get better prices in Kentucky. It is a very serious proposition to the farmers and house keepers, and a problem hard to figure out.

Remember that H B Northcott has removed to the Leavel Planning Mill property on Crab Orchard street.

Enterprising J B Conn finds that the number of calls after he closes at night is such that he has a phone installed in his residence, No. 94.

Everything brought good prices at Dr. Beazley's sale Saturday. Capt. J Dunn, one of the best auctioneers in the South "cried" the sale.

Election in Garrard.

Tuesday was the most quiet election day ever experienced in Garrard county. The full vote was polled, but the quiet, modest way in which the voters went about the polls was something exceedingly remarkable, here in a county where every inch of ground is generally stubbornly contested. In town there was not the slightest disorder, and, most of the time there was not a corporal's guard about the voting places or on the streets. The usual hub hub kicked up on the night of election was very conspicuous by its absence, and the Public Square was as quiet as a country grave yard.

For this spirit of advancement in civilization, let's give three cheers and a tiger!

The votes in Garrard, as correctly as we can get it, are as follows:

	PRECINCTS	PARKR	Roosev	Gilt	Miles	Cantl	Hendr	Carp
Total Majority	1177	1343	1343	1172	1172	1172	1172	1172

Grove Church C. E.

The Christian Endeavor Society, of Pleasant Grove church, will give an oyster supper at the toll-gate house, Camp Dick Robinson, next Wednesday evening, the 16th, beginning at 5 o'clock. Admission 25cts. Admission 25cts. A splendid supper will be served, and you should go and thus help a noble cause.

Important Notice.

After the inside of this issue was printed, a telephone message from Bryantsville stated that the supper at that place had been changed to Tuesday 15th. Remember the date, 15th, and be there.

Millinery at Cost.

We have decided to sell all our Ready-To-Wear and Pattern Hats at cost, in order to close out our immense stock of these lines. They are all beauties, right up to date, and you will miss a rare bargain if you fail to get one. The sale is now on, so come early and get first choice. The Main Millinery Store. Miss Ada Dickson. 11-11 ff.

Pretty Fences.

Mr J E Stormes has built an elegant iron fence in front of his Dr. Herring property. The gate posts are handsomely designed, and bearing his name for the place, "The Maples," while the gates are of exceptionally pretty design. He has rented the place to Mr Jennings for next year, as he has not decided upon the style of residence he will build. It will be a corker when he does build.

Death of Mrs. Chestnut.

After a lingering illness, Mrs T D Chestnut died at her home near Marksbury, Sunday night. She was a Miss Bixler, and was born near Salvisa. She was a devoted member of the Fork church, and beloved by all who knew her. One daughter, Mrs Alexander of Hubble, with the husband is left to mourn the loss. In their great bereavement they have the sympathy of many friends in Garrard and adjoining counties.

Pure Water, A Plenty.

The water now sent to town thro' the mains is coming from a big spring which has been discovered near the reservoir, and not one drop is being taken from the lake. This spring ran only a little stream for quite a while, but a little digging has developed a fine flow of water and this is run direct to the pool from which the engines send the water to town. It is as cold as ice, and clear as crystal. The lake, by the way, now has ten feet of water over an acre of land, which is something remarkable, when our sister cities haven't enough to make a good, old fashioned toddy.

Republican Landslide.

The returns from Tuesday's election shows a landslide for the Republicans all over the Nation. Roosevelt will stand in the electoral college with 325 votes against 161, Parker carrying only thirteen states, all of which are Southern. Roosevelt carried every doubtful state. Kentucky went Democratic by the usual majority, electing all Democratic Congressmen, save in the Eleventh. This, the 8th District, elects G G Gilbert to Congress by a majority of about 2,500. Jas E Cantrill defeats our townsmen, Capt. Herndon, for judge of Court of Appeals, about 10,000. The majorities in each state are far ahead of any in recent years. The Republicans will have control of both branches of Congress by a large majority. President Roosevelt announced Wednesday morning that under no circumstances would he be a candidate for re-election.

Rockcastle went republican 834, Madison 150 democratic, Boyle 281 democratic, Mercer 200 democratic, Anderson 500 democratic, Shelby 1,100 democratic, Spencer 800 democratic, Jessamine 200 democratic, Lincoln 63 democratic.

Democratic Committee.

The Garrard County Democratic Committee is hereby called to meet at the court house in Lancaster, Saturday afternoon, Nov. 12th at 2 o'clock. Business of importance.

LOUIS LANDRAM.

Entered at the Post Office in Lancaster, Ky., as
Second-Class Mail Matter.

Lancaster, Ky., November 11, 1904.

The hardest working Democrat in Kentucky during the campaign has been Senator James B. McCreary, of Richmond. Nearly every day he could be found upon the stump pleading the cause of his party, and anywhere the committee ordered him he was on the spot at the time advertised, doing his level best for his party. There is not one politician in five hundred who will take the stump and make all kind of inconvenient trips to fill dates unless he has some axe to grind, fix up his own interests, or lay plans for his own personal welfare. But in Gov. McCreary there has been none of this, and he went from the sense of duty to his party. No man in the Democratic party in Kentucky has rendered more faithful service, or done more unselfish work, and the rank and file owe him a debt of gratitute.

The most quiet Presidential election in the history of the country was the one just held. Brass bands, windy orators, tons of literature and faithful work by the party newspapers failed to create that excitement usually connected with such races, and the people simply went along with their business pursuits, stopping only long enough to cast their ballots. The working people of the country now use their own individual think shops to determine what steps to take in political matters, and don't waste time listening to windy arguments by public speakers who only abuse and vilify the fellow on the other side. Now that it is all over with, let's forget Roosevelt and Parker and all put shoulder to the wheel and contribute our little mite in upholding the best country the sun ever shone on.

We will wager thirty cents to a giner cake that Hon. John W. Yerkes will either be invited into the next cabinet, or be given one of the highest positions at Mr. Roosevelt's disposal. No one stands closer to the president, or is there a more popular gentleman among the Republican leaders in Washington.

The report of Buffalo Bill on the trail of the Wyoming bank robbers read very much like the little yellow-back dime novels the boys used to slip up behind the school book and read while the teacher thought them studying. Say you never did that? Gee, what a whopper.

Mr. Swallow, the Prohibition candidate for president, received quite a large vote. He was not swallowed, at any rate, but the increase in the Prohibition vote was enough to make him feel like slipping out behind the woodshed and taking several swallows.

A subscriber brought us three large pumpkins, one day this week. With an unlimited supply of pumpkin pie on hand, what do we care about the result of the election?

Misses Eliza Anderson and Lillie Dale Grant have returned from a visit to friends in Preachersville.

Mrs W B Cook and son, Robinson, have gone to Hendersonville, North Carolina, to spend the winter.

Miss Hattie Doty is at home for the winter, her health being so poor she was unable to hold her position.

Mr J L Anderson, who has been visiting here for a few days will return to Washington, D. C., this week.

Mrs Mary Reid has recovered from her recent illness. Miss Julia Reid, who is quite sick is reported some better.

Miss Eliza Anderson gave a dinner Friday evening in honor of her cousin Mr J L Anderson, of Washington, D. C.

Miss Bettie Anderson is visiting the World's Fair. She will also visit her sister, Mrs Frank Bacon, of Kansas City.

Miss Margery Drew, who has been the attractive guest of Miss Martha Gill, returned to her home in Portsmouth, Ohio, Wednesday.

The many friends of Mrs Lewis L Walker will be glad to learn that she is much improved in health. She left for Colorado Springs some weeks ago, and has improved every day since her arrival there.

Misses Margaret and Joan Mount, were charming hostesses Tuesday evening at a euchre party. The home was beautifully decorated in yellow and white chrysanthemums. The prizes were beautiful. The evening was one of great enjoyment to the guests.

Mr Millard F West, of Washington City, came out to stamp under the log cabin, returning to his post of duty Wednesday morning. Millard has a desk in the office of Commissioner Yerkes. His genial manner, big heart and splendid character have won many friends for Millard.

It is with great pleasure that we announced the wonderful improvement in Aunt Susan Anderson's condition. As stated in a recent issue of The Record, her shoulder was broken by a fall. The injury has so far improved as to allow the bandages to be removed and she will be out in a few days.

Richmond Register.—Mrs George D. White has been elected a teacher at Caldwell High School, vice Mrs A. C. Wells resigned. The new selection is a most happy one, as Mrs White is one of the most cultured and intellectual ladies in our community, and will give the most pronounced satisfaction.

Mrs Louis Landram, who was so severely injured last week, is improving though the wounds have caused excruciating pain. All danger of permanent injury is past and she will be out in a day or so. We are deeply grateful to those who proffered assistance, and to the many friends who inquired as to her welfare.

Louisville Times.—A charming visitor here this week was Mrs William Simpson Elkin, of Atlanta, Ga., who was matron of honor at the Bradley-South wedding. Mrs Elkin was formerly Miss Nellie Duncan, one of the most popular girls in the State. She comes of a family of delightful women.

en and is a sister of Mrs W O Bradley.

Mrs Banks Hudson entertained Friday evening in honor of her visitor, Miss Little Webb, of Lexington. The rooms were beautifully decorated in palms and autumn leaves. An interesting feature was the peanut contest in which Mr R L Davidson won the prize. Miss Bessie Martin was the fortunate lady. Miss Mary Gill carried off the consolation. Mrs Hudson provided a charming hostess and the evening one of great enjoyment.

POWDER

Is used by many a woman who dislikes it. But what is she to do? Her skin is marred by eruptions, and it is only human nature to desire to hide such defects from the ordinary glance. A much better thing to do is remove the cause of eruptions—bad blood. This is done perfectly and permanently by the use of Dr. Pierce's Golden Medical Discovery. It purifies the blood, cleansing it from poisonous substances which cause disease. It cures pimples, eczema, tetter, boils, scrofula, sores, erysipelas and other eruptive diseases which are caused by the impure condition of the blood.

"When I commenced taking your 'Golden Medical Discovery' I felt so weak and bad could hardly drag myself around. Mrs. Emma West, of Mindy, Wirt Co., W. Va., "Face seemed to be covered with brown spots, but before I had taken one bottle of your medicine the spots were all gone, and I began to feel like a new person. Took four bottles and have felt well ever since."

"My husband has also taken the 'Golden Medical Discovery' for stomach trouble, and it did him more good than anything he ever tried."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains; you lose. Therefore accept no substitute for the "Golden Medical Discovery."

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 31 one-cent stamps for the cloth-bound volume, or only 21 stamps for the book in paper covers. Address Dr. R. V. Pierce, Buffalo, N. Y.

The Turkey Crop.

In our last issue we had something about the turkey crop being short and high prices expected for Thanksgiving. Upon investigating the matter we find that the crop in Kentucky is above the average and in the West turkeys are more plentiful than in years. This is not so bad, and after all we will be able to eat turkey this season.—Bourbon News.

The Future of South.

"If cotton brings about ten cents for the next ten years," said a thoughtful business man in North Carolina the other day, "the South will again become, as it was before the war, the most prosperous section of our country. I know of no industry in the world which will yield larger returns, in proportion to the capital and the intelligence required, than cotton-growing at ten cents per pound."—The World's Work.

The Tobacco Growers Association.

President Hawkins, of the Burley Tobacco Growers' Association, says the time has been extended by the capitalists for securing the required number of signers of contracts of growers until next week. He is confident that the movement will be made a success.

No Extra Session.

A dispatch from Frankfort says: "The Kentucky Journal prints a story in which it says that it has it straight that there will be no extra session of the legislature. That when the capitol commission meets November 10, there will be a several days' session and that advertisements for contracts of various kinds of work will be made, work to begin in the early spring, the building to be completed on present site."

An Age of "Enlightenment."

The Anderson News declares the State College should be closed because the students engage in foot ball. This is on a par with refusing to attend church that has an organ to accompany the singing. Both are the walls of narrowness, bigotry and ignorance, and we are astonished at a Kentucky paper calling for such drastic punishment of an institution that ranks first in Southern Technical Schools, and turns out firstclass men in all departments. State College of Kentucky is doing a greater work for the people than all the other colleges combined. It is the "people's school," as the News says, but it must not return to the primitives of "antie over," "shinny," "town-ball," "leap-frog," or Friday spelling matches.—Richmond Clipper.

Drain the Wet Spots.

Wet land should be drained, as it may be the most fertile on the farm. By the use of drain tile there will be no unsightly open ditches, and the field can be cultivated as easily as any other. If the land is not very wet the cost of drainage will be but little, and such land will be just as valuable for pasture as before, with the added advantage of being adapted to a greater variety of grasses than formerly. It can then also come under the regular crop rotation. If a plot has been too wet to use for ordinary crops it will also be too wet for grass some years, and when drained it will produce green food earlier in the spring and later in the fall.—EX.

The Best Liniment.

"Chamberlain's Pain Balm is considered the best liniment on the market," writes Post & Bliss, of Georgia, Vt. No other liniment will heal a cut or bruise so promptly. No other affords such quick relief from rheumatic pains. No other is so valuable for deep seated pains like lame back and pains in the chest. Give this liniment a trial and you will never wish to be without it. Sold by Frisbie's Drug Store. 1m

Preparing Turkeys for Market.

Farmers Home Journal:—The turkey raisers should now be thinking of getting their stock in condition for Thanksgiving market. The condition of the dressed fowl has much to do with the price. In the first place they should be well fattened, and then there should be great care taken in the cleaning, packing, etc. There is a vast difference in the appearance of turkeys when sent to market; there are those with round plump bodies, yellow skin and not a break in the skin from head to foot, which goes to show that the one who raised them for market had given them especial care to make them have that appetizing appearance wanted by the choicest buyers who are willing to pay the price for a first class article. Then there are turkeys which have the appearance of being half starved, they are poor and do not have that symmetrical plumpness so much desired; the plucking has been poorly done, the skin broken in many places and the flesh has the appearance of being bruised and handled in a very careless manner. A true index to the character of the one who raised and prepared them for market. Such fowls never bring the highest prices and are always a drag on the market. There is no other excuse for such conditions than carelessness, and carelessness never pays in anything. It is always profitable to do right what you do. So in sending your turkeys to market always see that they present an inviting appearance when they reach their destination; be careful in packing them and wrap each one in a good heavy paper, or better, a nice, clean cloth so that they will not rub each other and become bruised; pack in clean boxes or barrels and mark choice, fancy dressed turkeys. This all requires a little extra time and trouble, but an additional few cents the pound will well pay you for all the extras. Try this and be convinced.

The Pastor's Institute is for All Workers. The Sunday school superintendent and teachers of the State are making a mistake by not attending the Pastor's Sunday School Institute to be held in Louisville, December 5-9. Though it is called a pastor's institute still a moment's thought will show that the pastor's work must be done through his officers and teachers, and that the work of the institute will be just as valuable to them as to him. A glance at the program will convince any one of this. The first day is called "Pastors' Day"; the second "Superintendents' Day"; the third, "Teachers' Day"; the fourth, "Parents' Day." If superintendents, teachers and parents cannot attend the full session they should at least attend on the day set apart especially for their work. Write for program, examine the rich array of subjects, remember the noted experts constituting the faculty, and then see if you can afford to stay away. Full particulars may be had from E. A. Fox, Louisville, Kentucky.

Limit of Public Jurisdiction.

In reversing a judgment of the Bell Circuit Court in a case of WH Ingram against B A Fusion, the court holds that under Section 143 of the Constitution the General Assembly cannot confer jurisdiction upon Police Courts to try offenses occurring outside the corporate limits of the town. It holds void Section 3,496 of the Statutes.

Keeping Apples Sweet for Years. A farmer near Union City Michigan amazes his neighbors by keeping apples, pears, peaches, grapes, etc., in their natural state for several years. He now has apples and grapes grown in 1901 which can hardly be distinguished from this year's product. He now gives out his method of preservation, which is very simple, as he merely selects well developed fruit with good stems, picks it carefully and sears the end of the stem with lighted match. Then he wipes the fruit perfectly dry, places it in a piece of dry wrapping paper and lays it away in a moderately dry and cool cellar.

Chamberlain's Cough Remedy is Pleasant to Take.

The finest quality of granulated loaf sugar is used in the manufacture of Chamberlain's Cough Remedy, and the roots used in its preparation give it a flavor similar to maple syrup, making it quite pleasant to take. Mr W L Roderick, of Pooleville, Md., in speaking of this remedy, says: "I have used Chamberlain's Cough Remedy with my children for several years and can truthfully say it is the best preparation of the kind I know of. The children like to take it and it has no injurious after effect. For sale by Frisbie's Drug Store. 1m
